

Exclusive Offer from OAISYS for POMAA Members

In 2009, OAISYS was proud to help POMAA kick off its first ever national conference by signing on as one of its earliest corporate sponsors. As the year progressed, so did our relationship with POMAA, allowing OAISYS to educate medical offices across the country on the many benefits to be gained from our voice documentation and interaction management solutions.

In 2010, we want to keep that relationship momentum going by extending a special exclusive offer to all POMAA members. All OAISYS voice documentation solutions come standard with one year of hardware and software support included. This includes tier-two technical support via phone, email and web, software version upgrades and hardware advance replacement.

To demonstrate our continued commitment to POMAA in 2010, OAISYS is providing a second year of support absolutely FREE to any POMAA member managed practice that purchases one of our solutions.

Our solutions are uniquely geared to the healthcare industry. Unlike any other call recording solution on the market, only OAISYS provides patent-pending Portable Voice Document (PVD™) technology for highly secure, HIPAA-compliant documentation of telephone-based conversations. With OAISYS, healthcare providers can simply, efficiently and affordably document calls for improved accuracy, collaboration and liability protection.
